

Add-on for RailWorks

Version 1.0 at 17.12.2011

Add-on includes

- Insulated wagon thermos in **two liveries**.

Main features

- Gauge 1520mm
- Automatic coupling SA3
- Brakes animation.

Technical details

- This add-on has been tested on a **licensed game RailWorks 3: Train Simulator 2012 version 7.1a** and correct work on earlier versions is not guaranteed.
- After installing the add-on files takes up about **22MB**.

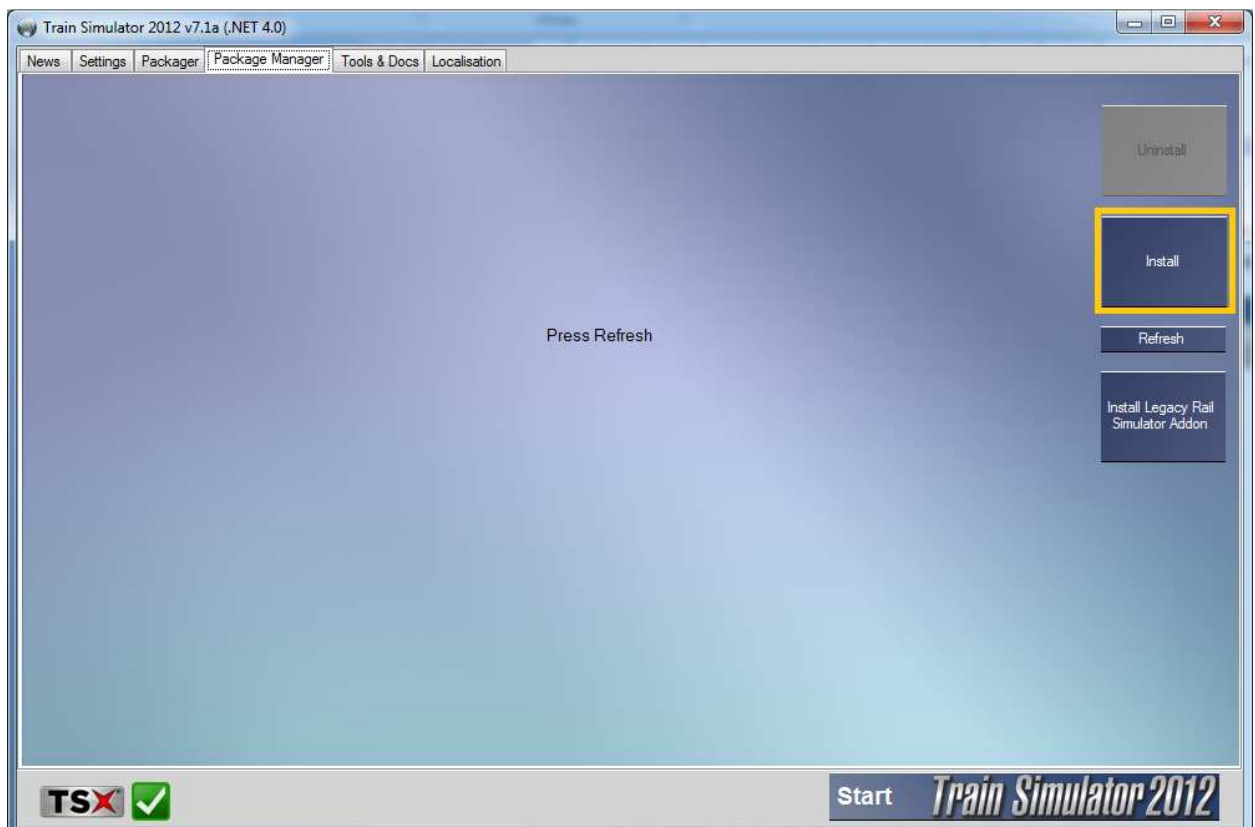

Dependencies

For correct work of this add-on need to download and install:

- Shunter TEM2: pack #1 - <http://railroadsim.net/en/downloads/rw/packs>

Installation

Add-ons for RailWorks are distributed in the format of the archive (*.rwp files) and install with built-in Add-ons Manager, which is located on the tab **Package Manager**.

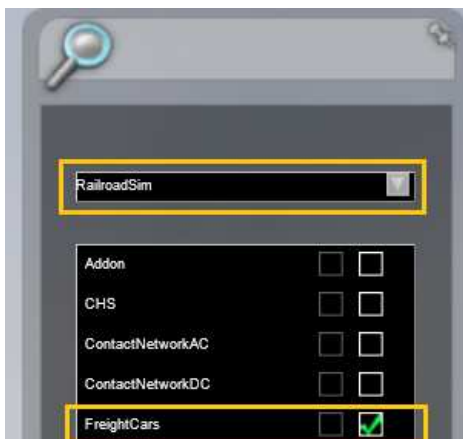

Click the big button **Install**, which is located on the right, and specify the location of **rwp**-archive.

To display installed add-ons in the object lists of the **World Editor**, open the left middle panel of the **World Editor** and click on the **Object Set Filter** icon that looks like a **blue cube with an orange arrow**.

After clicking on the icon, at the right edge of the screen displays a new panel with a list of authors of Add-ons. You must select the author **RailroadSim**. You must then select packages:

- **FreightCars** (Freight cars here. Unexpectedly? ☺)

Now the rolling stock, the characters and the world objects can be found in their respective categories on the left middle panel, under the names:

- **RU Thermos #58014184**
- **RU Thermos #91813006**

Authors

Modelling, photos compilation, repaints	Artem Pogrebnoy aka Kazus
Modelling, configuring, scripts	Andrey Podlesnyy aka Mr. Angelo
Photography	Ivan Golubovskiy aka GiG

Financial Support

Creating game content is hours of work, and not only at the computer: it's also trips in search of photos, videos and audio material, trips for the collection sizes and other relevant information. All of this also entails the necessary cash expenses: the equipment, tickets for long trips and some household nuances. Nevertheless, our products remain **free**.

Are you interested in our project and our creativity, and you want to express your gratitude to the add-on developers? You can donate some of your money via electronic payment systems (**WebMoney** <http://geo.webmoney.ru/wmobjects/?lang=en>) or by **bank transfer**. Unfortunately **PayPal** payment system at this time does not allow russian users to receive payments. If you have any information on how to get around this limitation, please contact us by email andrey@railroadsim.net.

- Our WebMoney purses: **Z150721335690** (USD), **E401674932301** (EUR), **R187747403756** (RUR)
- Our PayPal account: **donate@railroadsim.net**

Also, the actual details for the transfer of money, as well as the names of those who have helped us to always be found on our website <http://railroadsim.net/en/donate>.

We would appreciate anyone who can help us a little bit to compensate our investment of time, effort and money.
